EXPERIENCE

CONCORDIA UNIVERSITY

Montreal, Quebec

Teaching Assistant | Advanced Program Design with C++

Sep 2026 – Present

- Conduct lab sessions and tutorials, walking students through course material and hands-on exercises.
- Mark student assignments and projects.

Research Assistant | Transcranial Ultrasound & Ventricle Segmentation

Jan 2026 – Present

- Segmented the lateral ventricles in paired transcranial **ultrasound** and **MRI** of 8 patients using **nnU-Net**.
- **Curated and annotated** an ultrasound dataset and benchmarked **foundation models** (UltraSAM, SAMUS) zero-shot.
- Co-developed a three-layer, skull-mimicking ultrasound phantom and calibrated the ultrasound system for data collection; **designed and 3D-printed** probe attachments and head phantoms for the experimental setup.

ORACLE NETSUITE

Toronto, Ontario

Technical Support Analyst | SuiteCloud & SuiteBuilder

Oct 2024 – Sep 2025

- Troubleshoot and debugged **SuiteScript** 1.0 and 2.x customization scripts, and in simpler cases wrote and delivered working code directly to customers for faster resolution.
- Achieved a **100%** case resolution rate with consistent **5/5** customer satisfaction ratings, exceeding departmental performance expectations.
- Resolved **SOAP** and REST API integration failures, restoring real-time data flow.

BETTERMODE

Toronto, Ontario

Software Engineer Intern | Slack Integration Optimization

Jun 2023 – Sep 2023

- Implemented **Slack** integration in the BetterMode web application, enabling businesses to connect their BetterMode community with their Slack workspace.
- Redesigned the back-end architecture in NodeJS to use dynamic blocks, cutting setup time by **20%**.

UNIVERSITY OF WINDSOR

Windsor, Ontario

Research Assistant | Machine Learning & NLP

Jun 2022 – Dec 2023

- Built ML models for autonomous-vehicle network security, reaching **99.8%** signal-transmission accuracy; automated training pipelines cut training time by **30%**.
- Improved NLP detection of online predatory conversations by **5%** through feature engineering, expanded the dataset **20%** with a Scrapy crawler, and presented the findings at UWill Discover 2023.

TECHNICAL SKILLS

LANGUAGES: Python, C++, Java, JavaScript, SQL.

ML & MEDICAL IMAGING: PyTorch, MONAI, nnU-Net, scikit-learn, NumPy, pandas, 3D Slicer; image segmentation.

ENGINEERING & DATA: Git, Docker, Linux, Flask, FastAPI, Node.js, REST APIs, MySQL, MongoDB, SQLite.

EDUCATION

CONCORDIA UNIVERSITY • MASTER OF COMPUTER SCIENCE

Montreal, Quebec • Jan 2026 – Present

UNIVERSITY OF WINDSOR • BACHELOR OF SCIENCE IN COMPUTER SCIENCE (HONOURS)

Windsor, Ontario • Sep 2020 – Apr 2024

Awards: Student Access Bursary Recipient, In-Course Scholarship Recipient (three times), Dean's Office Scholarship
